INSTRUCTIONS FOR COMPLETION OF WELL REGISTRATION FORM

1. Please print legibly.
2. All blanks must be filled in. If the information is not known or not available, enter "U/K" or "N/A", respectively.
3. If any of the following schedules or logs are available, please attach a copy to this application. Driller's Log must accompany any new well registration.
 - a. Driller's Schedule
 - b. Driller's Log
 - c. Electric Log
 - d. Water Quality Analysis

IMPORTANT NOTES

1. All wells in Fayette County, both new and existing, must be registered with the Fayette County Groundwater Conservation District. **For new wells** (those drilled after January 1, 2004): if the well is categorized as exempt, and meets the spacing and minimum tract size requirements, the well driller may immediately commence drilling. A registration form must be filed with the District, along with completed Well Driller's Log, within 14 calendar days after the well is drilled. For any other (non-exempt) wells, an application for a well permit must be filed by the well owner, well operator, or water well driller prior to drilling the well. Violations of this process will be subject to monetary penalties and/or legal action.
Exempted wells are defined as:
 - a. wells for "domestic use" as defined in the District Rules, and wells used to supply the domestic needs of 10 or fewer households if each of the households is for the well owner, a person related to the well owner within the second degree of consanguinity, or an employee of the well owner;
 - b. wells for watering or feeding livestock and poultry in connection with farming, ranching or dairy enterprises;
 - c. wells drilled or equipped such that it is incapable of producing more than 25,000 gallons of groundwater per day;
 - d. wells used to supply water for hydrocarbon production activities associated with any oil or gas well permitted by the Railroad Commission of Texas.
2. No new well may be drilled on properties of less than five (5) contiguous acres or within 50 feet from the property line of any adjoining landowner.
3. Well registration forms must be accompanied by any applicable fee and/or deposit.
4. All wells must be re-registered when any of the following conditions occurs:
 - a. The property changes ownership.
 - b. The boundaries of the property change.
 - c. Another well is drilled on the same property.
 - d. Any change or alteration is made to the registered well.
5. Under drought or other depletion conditions, all wells can be subject to withdrawal controls by the Fayette County Groundwater Conservation District.
