Date: December 10, 2004  
Contact: Linda Streicher, Manager  
Telephone: (979) 968-3135, Fax: (979) 968-3194

### WELL REGISTRATION DEADLINE

La Grange, Texas — The Fayette County Groundwater Conservation District recently mailed out reminders about the District's ongoing well inventory throughout Fayette County. All water wells are required to be registered with the District, and the deadline for registering existing water wells is December 31, 2004.

Well registration will assist the District in estimating how much water the people of Fayette County need, now and with projected growth. It was recently announced that the Texas Water Development Board expects the state's drinking water supply and demand to equalize in 2010. Water has become a critical natural resource, especially in the urban areas around us. We must make sure Fayette County groundwater is protected! Groundwater districts cannot prohibit the exporting of groundwater. However, the district can set limits on how much water is taken out of the county, providing it has the data to support those limits. You can help insure that the district doesn't underestimate Fayette County's future water needs by registering your well today. Call the District office at (979) 968-3135 to have a form mailed to you, or pick one up at the District office at 254 North Jefferson, Room 600, in La Grange. Forms can also be downloaded from the website at [www.fayettedistrict.com](http://www.fayettedistrict.com).
